1

SUPPORTING YOU IN CHALLENGING TIMES

We were by your side helping you navigate the pandemic

2

HELPING YOU DELIVER SUSTAINABLE FUTURES

We're now working to ensure your voice is heard by government

Influencing constructively on your behalf – recent member wins on **Net Zero infrastructure planning**, the **HM Treasury Green Book** and the **Environment Bill**.

Clearly articulating **the voice of environmental sector** to policymakers and the media.

Getting technical regulation right – detailed work on **asbestos**, the **Definition of Waste Code of Practice** and **technology accreditation on air pollution control**.

Helping you digest key policy shifts through our **briefings and webinars**.

3

CREATING OPPORTUNITIES FOR GROWTH

We're sharing the practical support which helps your business to thrive

Connecting large engineering consultancies with the **SME green technology providers** who can help deliver their designs.

Offering dedicated support to SMEs wherever they are based through our recently published **SME guide to Net Zero**, with versions for Scotland, Wales and Northern Ireland.

Exploring how digital transformation will create new business opportunities through our **Green Data and Sustainable Smart Cities** events and research.

Exploring SME **procurement opportunities** through our **workshops with clients** such as Highways England.
