

Agenda

Subject: EIC Air Quality Working Group

Date: 21st September 2021

Time: 13.30-15.30

Venue: Teams (Virtual)

1. **Welcome and Introduction – Jim Mills**
2. **Guest Speaker: Nick Shaw, Deputy Head of Environment Strategy**, for the Department for Transport who will be presenting to us the Governments plans for decarbonisation of Transport to 2035. This is a wide spread policy area which all Members should have an interest in. You can download the details from the following link:
<https://www.gov.uk/government/publications/transport-decarbonisation-plan>
3. **Guest speaker: David Deakin**, Technical Director, Air Quality & Permitting, Environment & Ground Engineering, David will be presenting a selection of air quality projects AECOM gets involved with and explaining how EIC SME Members can assist in niche projects which they are working on. This generally recognises large scale projects like HS2 and National Highways (formally known as Highways England) or major housing projects.
4. **Minutes of the last meeting and matters arising**
5. **EIC views on future air quality targets – opportunity for member input – Matthew Farrow, EIC**
6. **Air Quality and Emissions Show – 13th and 14th October (Online and Free to register) – Jim Mills**
7. **National procurement concerns – Open Member discussion**
 - Indoor Air Quality
 - Air Quality and noise mitigations
 - Other issues
8. **AOB**
 - RTFO order – Jono Anderson
 - Speaker for next meeting – NRMM
